REVENUE €
(2023)

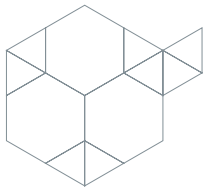

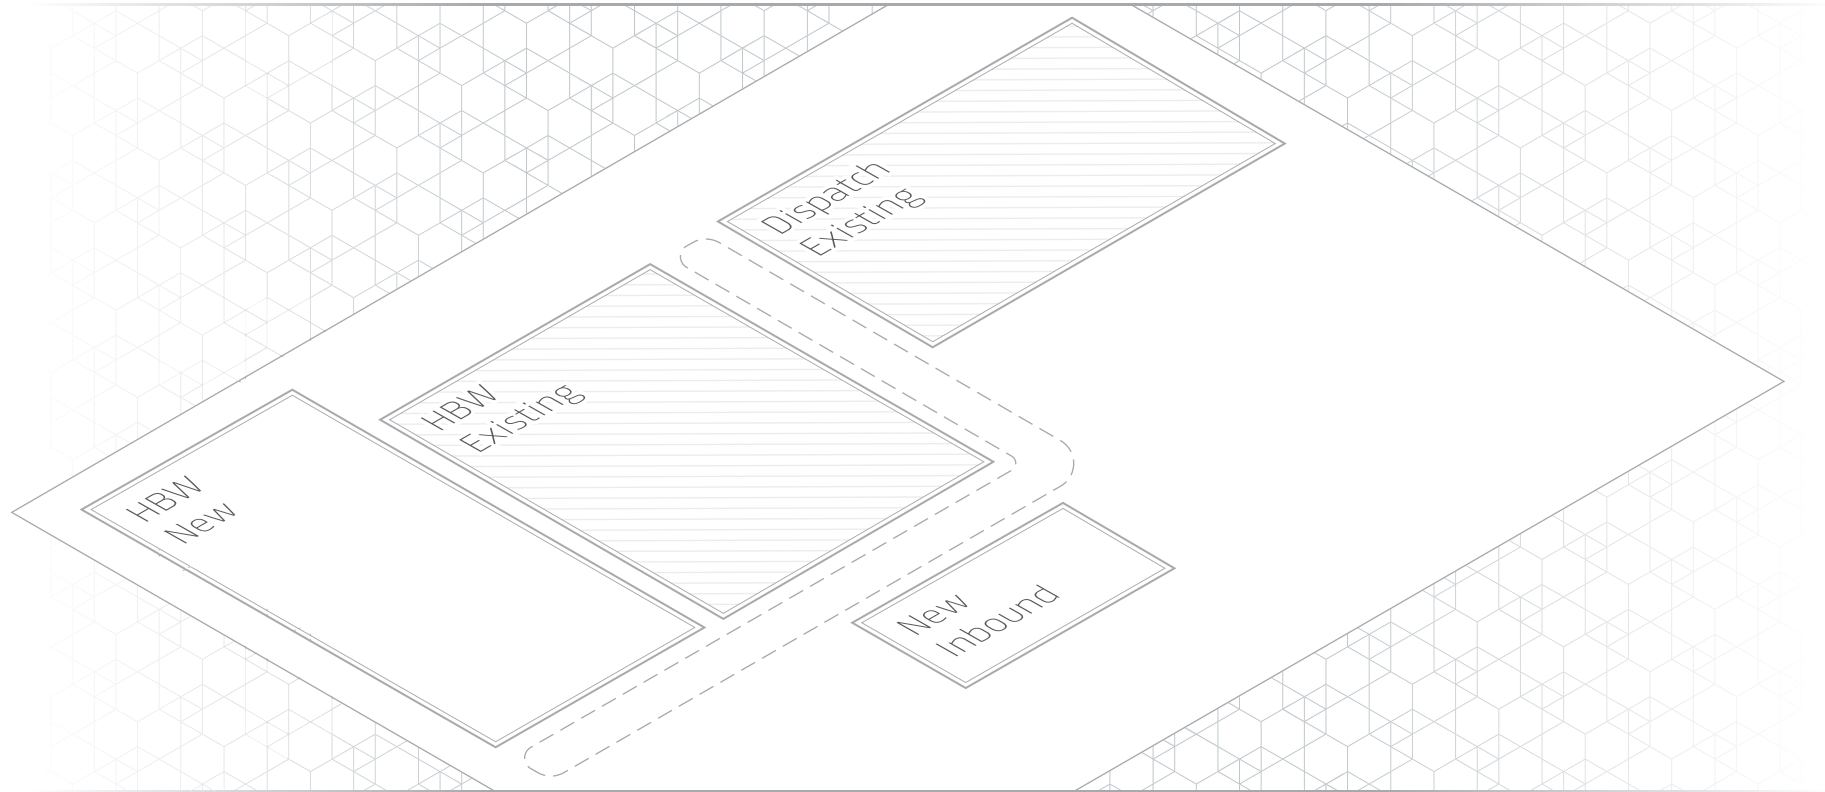

PURPOSE

- > Due to capacity limits and outdated software, the existing high-bay warehouse from 1995 will undergo a system upgrade and expansion.
- > The material flow computer and warehouse management system will be replaced with minimal disruption, and 13,000 new storage locations will be added.
- > The new control technology will integrate with existing PLCs, IT interfaces, and SAP as the host system. The new conveyor technology will be connected to the existing transport lines.

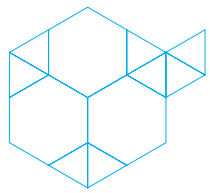

FACT SHEET

Logistic Building
69 x 33 x 30,5 m

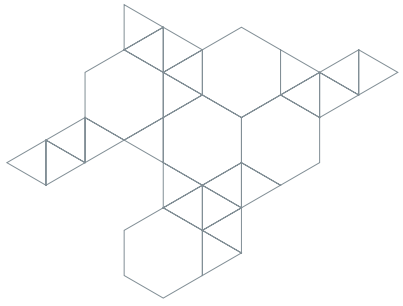

Project Scope
approx. €8 million

FACT SHEET
